

A/36-1 Triaxial Piezoelectric Accelerometer

5pC/g nom

18gm

Max Temp 220°C

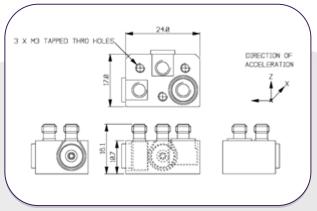

All the Microdot connectors are exiting in the same direction. Each insert is electrically insulated, individually from the housing, thus eliminating ground loop interference.

To avoid the effects of triboelectric noise low noise cable must be used terminating to a 10/32 microdot connector.

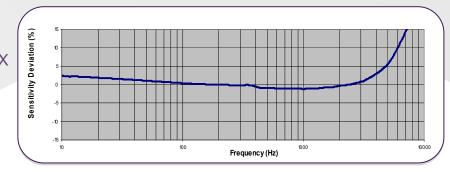

The A/36-1 can be mounted using the three M3 tapped holes or mounted using adhesive. The A/36-1 is widely used in the Automotive sector for engine tests.
